## Enemy Aliens and Propaganda

**Review:** In 1914 Canada was a British Colony and as such when Britain declared war on August 4, 1914 Canada automatically went to war. There was initially a lot of support for the war among Canadians – many who had come to Canada from Britain. Canadians felt patriotic and also believed war would be a grand adventure. When soldiers actually reached the Western Front; however, they quickly realized that not everything would be fun and games.
